Hi everyone, Tracey Duffey from ofi (Olam Food Ingredients)

Hi everyone, I am Morongwa Marutha from Cenfri, the Centre for Financial Regulation and Inclusion South Africa

Greetings everyone, Maddie Batlas from Land O'Lakes Venture37, Washington, DC.

Hell, John Jobba Carlos, Food Security and Livelihood supervisor, Maiduguri Nigeria

Good morning /afternoon, Ekanath Khatiwada, Policy and Regulatory Advisor from WE4F S/SEA Regional Innovation Hub

Hi everyone, am Nyarunda, Mosocho Community Foundation Kenya

Hi everyone, Eline Reintjes from policy team at FAIRR, an investor network focused on sustainable food systems

Good day. Hedwig Siewertsen Inclusive finance for Alliance for Greener revolution in Africa (AGRA)

Hello to all from Mark Gibson, International Sustainable Agriculture Lead, RSK group - an engineering, environmental and technical services provider (https://rskgroup.com/).

Hello All. Keith Polo from Missio Invest.

Good evening everyone. Philemon Ayihonsou from Benin, west africa. Research associate | Management of Agricultural innovations Msc, Graduate student.
Hello everyone. Daniel Oros from USAID/RFS/TS/WSSH in Washington, DC.

Greetings! Bill Mays, former COP and Senior Advisor in Eastern Europe & Central Asia with Cardno International Development.

Representing www.PangeaAfrica.com, a private provider of business advisory services to West African agriSMEs, currently focusing on Ghana, Senegal, and Sierra Leone.

Hello, Greetings from Tbilisi, Georgia

Greetings all! Felix Atamba, Nairobi Kenya

Hello everyone! I am Debebe Gashawbeza from Ethiopia, Hawassa.

Hello everyone, greetings from Ghana.

Greetings all. Lauren Burnhill, OPV - working with CDC on TA., research and events to help financial institutions bring gender and climate intentionality into their credit & service offerings. We're currently working on a 2X Green Agriculture research & event project for CDC investee banks and NBFIs in Francophone Africa. Would love to connect with any of you who find that of interest :-)

Hello Greetings from Zambia

hello? am Calvince Onyuka, Cereal Growers Association (member based farmer organization), kenya

Hello All. I am Ainemagara Isa, working with Heifer International Uganda

The virtual meeting organizers, please share us the presentations and supporting documents.

Hello everyone, Francois NSENGIYUMVA, Chairman of Rwanda Agriculture and Livestocks Chamber

@PETER BEEZ: Which "smart" subsidies support best agroecology? Any relevant report from SDC?

Hi Francois! Please post your question in the Q&A chat in the bottom right.

Greetings from Johannesburg, South Africa. Our NPO receives a lot of requests from aspiring small holder farmers for technical assistant. However, we do not have the necessary expertise even though we know that some of their ideas and proposals are ground breaking!

Hi everyone, Franziska Salzer, sector economist, KfW Development Bank
Hello everyone, Stephen Kabwe, IAPRI, Zambia

Greetings Colleagues. Jason Hubbart, West Virginia, USA.

In my country, Ethiopia, a large number of livestock including camel died due to drought and the herders, specially, pastoralists lost all their assets. How do you think these victims can be supported and is there any livestock insurance system available? How can projects working on improving livestock sectors get involved? Can I have any best experience that can be shared?

Hello everyone. Caleb Magambo from Nairobi Kenya

Hello all. Tang Simon from Ghana, with Amplio Ghana

@Debebe, very interesting question that concerns the intersection of emergency response and private sector engagement. Would be great to hear panelists ideas. When I was with USAID/OFDA, we faced the same issues in West Africa and considered interventions related to provision of animal health services and private manufacture of animal feed.

Greetings all, Daniel Gies here, working with commercial banks on agricultural financing and product development in Tanzania and Rwanda targeting women and smallholders.

Hello All! Jennifer Fox from the Gambia. We are working to create a socially minded agribusiness here including small community-based agriculture and aquaculture projects.

Greetings to everyone. Nicholas Manana from Eswatini working as an agricultural researcher.

Greeting to all. Yadanar from AFDA (Myanmar) working as a SA to Finance officer.

Greeting all from Egypt

Greetings to every one. I am Benjamin Tchoffo form Cameroon, the President of Board of Directors of BIOFRUITLEG, z cooperative of farmers producing bio fruits and legumes. Since the problem of small holders farmers or SME is a collateral when they are to apply for financial support. How do you adress this problem in your program.

Reminder to check out the Ag Finance posts on Agrilinks! You can view them in the sidebar of this post by Songbae: https://agrilinks.org/post/january-agricultural-finance-month

Hello everyone. Andre Machava, working at the National Irrigation Institute in Mozambique. Interested in initiatives and technologies aiming at increasing crop and water productivity.
[2022-01-27 10:19:00] [Kiiza Kizito] Hello everyone, Kiiza Kizito working with Catholic Relief Services in a USDA funded Vanilla market system project in Uganda
[2022-01-27 10:21:18] [Bithika Das Hazra] Under Siinc what is the exit strategy on the investors?
[2022-01-27 10:21:56] [Amanda Fernandez] Hello all, Amanda Fernandez, Executive Director of CATALYZE, a USAID-funded initiative to spur expended financing via private financial institutions using smart subsidies in 2 dozen countries and many sectors. In the last six months we have facilitated US $23M in financing via private entities to 90 firms. Ping me at amanda.fernandez@thepalladiumgroup.com to receive a copy of our latest public report!
[2022-01-27 10:26:33] [REBECA GLORIA GOMES] In Mozambique cooperatives can't have access to loans from the banks. The banks ask for many process that are not ease to fill
[2022-01-27 10:26:42] [Robert Navin] Please provide full names and contact info for Alexandra and Anouk. Great panel!
[2022-01-27 10:26:46] [Juliet Macdowell] to help de resik investments, SCOPEinsight has - with AGRA and CFI - developed Bankability Metrics
[2022-01-27 10:27:11] [Juliet Macdowell] These metrics have been developed after interviewing over 90 financial lenders
[2022-01-27 10:27:41] [REBECA GLORIA GOMES] Rebeca Gloria Gomes rebecagloria@gmail.com from COOPAMIM Agrarian Cooperative
[2022-01-27 10:27:57] [Juliet Macdowell] and putting our data points (over 200 from over 5000 assessments of agribusinesses) to find out what are the drivers of agribusiness getting loans
[2022-01-27 10:28:43] [Juliet Macdowell] some of the costs of the TA need to be offset as its very expensive for agribusinesses
[2022-01-27 10:29:08] [Olubunmi Moses AGUNREGE] we have farmers cooperative my email omosesagunrege@gmail.com
[2022-01-27 10:29:08] [Juliet Macdowell] we work with BDS providers who do this TA and only very large agribusinesses can afford it
[2022-01-27 10:29:29] [Calvin Miller] Why only talk of first loss guarantees -when to consider first loss vs shared loss types of guarantees?
[2022-01-27 10:31:35] [Marc Steen] Well, the drivers license example is not very appropriate for small holder farmers that need to choose between paying the food for their family or the childrens≈school fees as compared to TA. Paying for TA is only possible for those farmers that have some financial resources and that can take the risk to invest it in TA.
[2022-01-27 10:33:11] [George Florin Staicu] Hello everybody,
Greetings from Bucharest, Romania!

My thanks and congratulations to the organizers and speakers of this interesting and insightful webinar!

George Florin Staicu

[2022-01-27 10:35:52] [Robert Navin] Pls comment on evolution of Banco Sol (Bolivian microfinance bank), experience of ACCION, ACDI-VOCA (coop development), and FINCA?

[2022-01-27 10:36:35] [John Scicchitano] Good chat on TA/BDS. Quality BDS costs money and SMEs need a willingness to pay - which they will not, if they are offered for free. Our solution to BDS is to charge with success fee, that is, the SME pays upon access to capital/growth.

[2022-01-27 10:42:00] [Dick Tinsley] Please visit the following website for compromise analysis on the plight of smallholder farmers: https://smallholderagriculture.agsci.colostate.edu/

[2022-01-27 10:47:48] [Mary Beggs] Great and practical points on CBA, Peter. Thank you!

[2022-01-27 10:48:27] [John Scicchitano] AMEN to transparency when there is donor funding! Too many projects are not providing such, including USAID agric projects without reporting on DEC.

[2022-01-27 10:50:18] [Dick Tinsley] Thank you for a very interesting webinar

[2022-01-27 10:51:43] [George Florin Staicu] My question: what is (will be) the impact of climate finance risk and of the green finance on agriculture finance both from the perspective of donors and farmers?

[2022-01-27 10:52:54] [Juliet Macdowell] Definitely being able to choose the correct agri AME is essential

[2022-01-27 10:53:43] [Calvinci Onyuka] interesting webinar. thanks for panelists

[2022-01-27 10:57:14] [chris patterson] Super informative, thanks panelists

[2022-01-27 10:57:18] [Nwaonyeukwu Perpetual Nnenna] thank you very much
[2022-01-27 10:57:23] [Caleb Magambo] Thanks
[2022-01-27 10:57:25] [Sigrid Meijer] Thank you
[2022-01-27 10:57:33] [George Florin Staicu] Thanks!
[2022-01-27 10:57:44] [Dan Norell] Thank you!
