

**FEED**<sup>THE</sup>**FUTURE**

The U.S. Government's Global Hunger and Food Security Initiative

# **Feed the Future Monitoring System (FTFMS) FY16 Reporting**

**Webinar  
September 29, 2016  
8:30-10:30am EDT**

## Whose voice is that?

**Anne  
Swindale**

USAID/BFS  
Sr. Program  
Advisor for M&E

**Kate  
West**

USAID/BFS  
Program Analyst &  
FTFMS Manager

**Julie  
MacCartee**

USAID/BFS  
KM Specialist

**Adam  
Schrecengost**

KDAD  
A/V Tech &  
Multimedia Producer

## Agenda

- Opening & Tech notes [5 min]
- Intro & Summary of major changes [10 min]
- Basics of using FTFMS [10 min]
- Details of Indicator Changes & Tricky Indicators [75 min]
- Q&A [15 min]

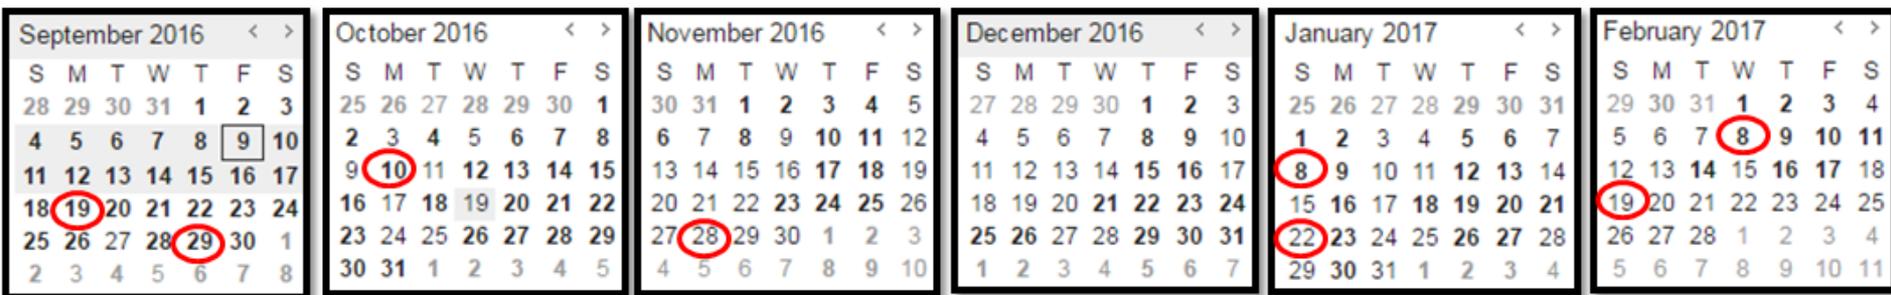

## Intro

- Feed the Future Monitoring System (FTFMS)
- All IMs with EG.3 (4.5) Ag funds or HL.9 (3.1.9) Nutrition funds
- Annual reporting by Implementers (IPs), Missions, Offices
- > 2500 Implementing Mechanisms (IMs); ~700 active/yr
- >1000 users
- Six USG agencies use FTFMS:
  - USAID, USDA, Peace Corps, MCC, Treasury, USADF
- Data aggregated and used for:
  - Producing the Progress Report
  - Answering Congress
  - Justifying budget requests
  - Informing Front Office decisions
  - Engaging with stakeholders
  - Influencing policy and programming decisions

## Timeline for Data Entry & Review

- Oct 10<sup>th</sup> = **FTFMS opens!**
- Nov 28<sup>th</sup> = **FTFMS closes!** [7 weeks for data entry by IPs, Missions, BFS staff]
- Nov 28<sup>th</sup> - Jan 7<sup>th</sup> [6 weeks] = Review 1 by M&E TAs and CSOs
- Jan 8<sup>th</sup> - Jan 21<sup>st</sup> [2 weeks] = Corrections made by IPs, Missions, BFS staff
- Jan 22<sup>nd</sup> - Feb 8<sup>th</sup> [2.5 weeks] = Review 2 by M&E TAs and CSOs
- Feb 8<sup>th</sup> - Feb 18<sup>th</sup> [1.5 weeks] = Final corrections by IPs, Missions, BFS staff
- Feb 19<sup>th</sup> = System LOCKS
- Feb 20<sup>th</sup> = Begin aggregate review and pulling initiative-wide data

## Summary of Changes – FY16

- **F's indicator “revamp”** and new SPSD numbering
  - Reflected in FTFMS; Anne will give details
- **NextGen OP & PPR alignment** (*USAID users only*)
  - Same connection like we had to FactsINFO
  - Some delays for projects (IMs) new in FY16 OP
- **IM Info updates** (website, contact types, etc.)
  - *See next slide*
- **Narrative template updates**
  - *See next slide*

# Changes: IM Info updates

Welcome, Kate West !

>> Enter Mechanism Information

## Changes: IM Info updates

The screenshot shows the 'Implementing Mechanism Details' page in the Feed the Future Monitoring System. The page includes fields for 'Operating Unit' (Comoros), 'Benefiting Country' (a list of countries), 'IM Tag' (56482), and 'Capacity building'. A modal window titled 'Add New Project Contact' is open, showing a 'Contact (Filter)' dropdown and a 'Contact Type' dropdown. The 'Contact Type' dropdown is open, showing options: 'Activity Manager', 'AOR/COR', 'Implementing Partner', 'Mission Contact', and 'Other'. A red arrow points from the 'Add Contact' button at the bottom of the modal to the 'Contact Type' dropdown. Another red arrow points from the 'Add Contact' button to the 'IM Contact:' field in the background. The 'IM Contact:' field is circled in red. The 'Add Contact' button is also circled in red. The 'Save' and 'Cancel' buttons are at the bottom right of the modal.

**Operating Unit:** \* Comoros

**Benefiting Country:** \* Afghanistan, AFR-SD, African Union, Algeria, All 15 ECOWAS countries, All 9 CILSS countries

**IM Tag:** 56482

**Capacity building**

**IM Contact:**

**Locations:** [Empty]

**Add New Project Contact**

# **Feed the Future indicator changes, timing and key indicator details**

# Foreign Assistance Indicator Redesign

- Guided by:
  - Central Use
    - External reporting
    - Learning
  - Improving indicator coverage
    - All remaining activity-level indicators now **Required-as-Applicable (RAA)**

## **DROPPED**

3.1.9.2(2) Number of **health facilities** with established capacity to manage acute undernutrition

3.1.9.2(3) Number of children under five received **Vitamin A**

3.1.9.3 (1) Percent **budget** to **nutrition**

4.5(10) Total increase in installed **storage capacity** (m<sup>3</sup>)

4.5.2(27) Number of **members of producer organizations** and CBS

Guidance on **dropped** indicators for **Feed the Future implementing partners** (FFP partners should **wait** for guidance from FFP)

This year

- Report on **FY16 results**
- **Don't set** outyear **targets**

Next year

- **Drop**

## REPLACED WITH NEW FTF INDICATORS

3.1.9(1) Number of **people trained in child health and nutrition**

3.1.9(15) Number of **children under five reached** by nutrition programs

4.5.2(13) Number of **rural households** benefiting

4.5.2(14) Number of **vulnerable households** benefiting

## REPLACED WITH NEW CROSS-LINKED INDICATORS

4.5.2(34) Number of people implementing **risk-reducing practices/actions** to improve resilience to climate change *and*

4.5.2(32) **Stakeholders using climate information** in decision making

4.5.2(37) MSMEs receiving **business development services**

Guidance on **replaced** indicators for **Feed the Future implementing partners (FFP partners)** should **wait** for guidance from FFP)

This year

- Report on **FY16 results** for **old** indicators
- **Set targets** for **new** indicators (if selected)

Next year

- **Report** on **FY17 results** for **new** indicators
- **Drop old** indicators

# New FTF Indicators

EG.3-1 Number of **households benefiting directly** from USG assistance under Feed the Future

## New FTF Indicators

HL.9-1 Number of **children under five** (0-59 months) reached with **nutrition-specific interventions** through USG-supported programs

HL.9-2 Number of **children under two** (0-23 months) reached with **community-level nutrition interventions** through USG-supported programs

HL.9-3 Number of **pregnant women** reached with **nutrition-specific interventions** through USG-supported programs

## New FTF Indicators

HL.9-4 Number of **individuals** receiving **nutrition-related professional training** through USG-supported programs

HL9-5 A **national multi-sectoral nutrition plan** or policy is in place that includes responding to emergency nutrition needs (Yes=1/No=0)

## New Cross-Linked Indicators

EG.5.2-1 Number of firms receiving USG-funded technical **assistance for improving business performance** (O)

EG.11-6 Number of people **using climate information or implementing risk-reducing actions** to improve resilience to climate change as supported by USG assistance (O)

ES.5-1 Number of beneficiaries participating in **productive safety nets** (O)

Not new, just a reminder that it's there

Guidance on **new indicators** for **Feed the Future implementing partners (FFP partners)** should **wait** for guidance from FFP)

This year

- **Set targets**

Next year

- **Report** on **FY17 results**

**\*\*\*ONE EXCEPTION – NUMBER OF HOUSEHOLDS BENEFITTING DIRECTLY\*\*\***

## Number of households benefiting directly from USG assistance under Feed the Future (NEW)

- **Replaces rural and vulnerable** households indicators
- Households in which **at least one direct beneficiary** of FTF assistance resides
  - Households with **more than one beneficiary** should be **only counted once**
- Disaggregate by...
  - **Duration**: new, continuing;
  - **Location**: rural, urban/peri-urban
  - Dropped Gendered Household Type

# Number of households benefitting directly from USG assistance under Feed the Future

## next steps and guidance

FTFMS will **transfer** # of **Rural Households** Benefitting **indicator data** to new # of **Households Benefitting** indicator under **Rural disaggregate**

This and subsequent years

- Report **results** and set **targets** under **new indicator**

Guidance on **new disaggregates** for **Feed the Future implementing partners (FFP partners)** should **wait** for guidance from FFP)

This year

- Report **FY16 results if possible**
- **Set targets**

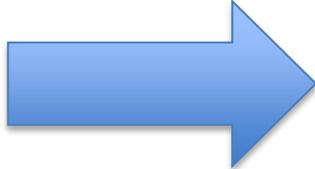

Next year

- **Report** on **FY17 results**

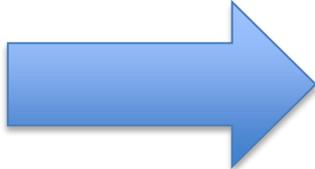

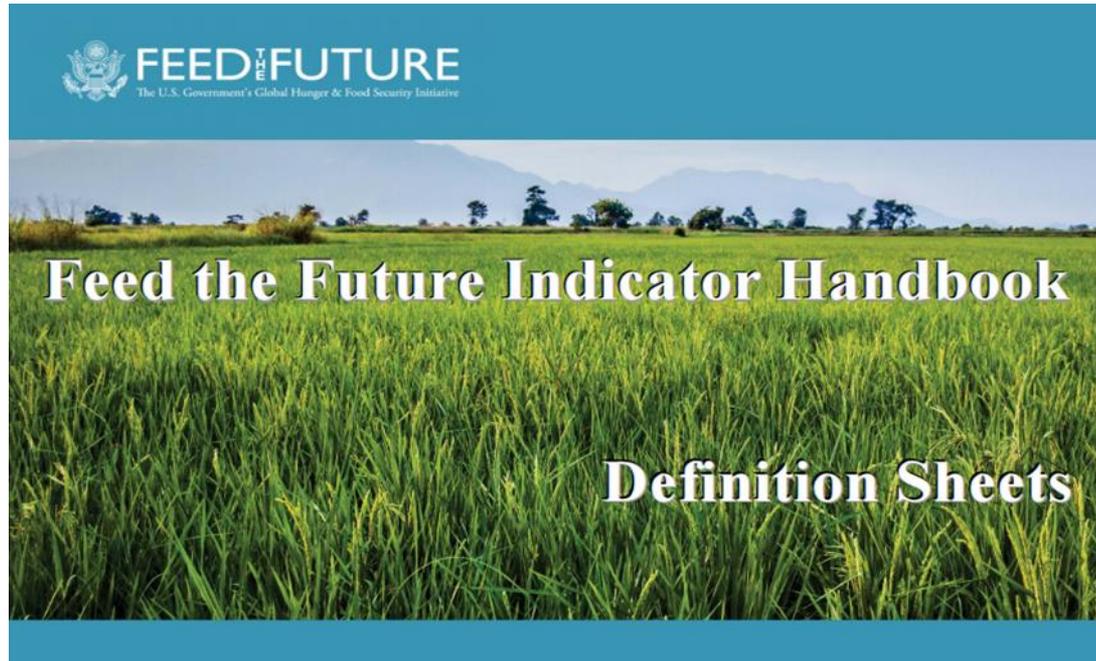

## Indicator numbering change

AGRICULTURE

4.5  EG.3

NUTRITION

3.1.9  HL.9

Describe direct and indirect beneficiaries

Describe changes and outline key indicator details  
that are important to remember and often confused

## Who is measured - How to count

- **Direct** beneficiaries - not indirect
- **Once** - not each time an intervention or benefit is received
  - But with capacity to disaggregate by type of intervention received

## A direct beneficiary...

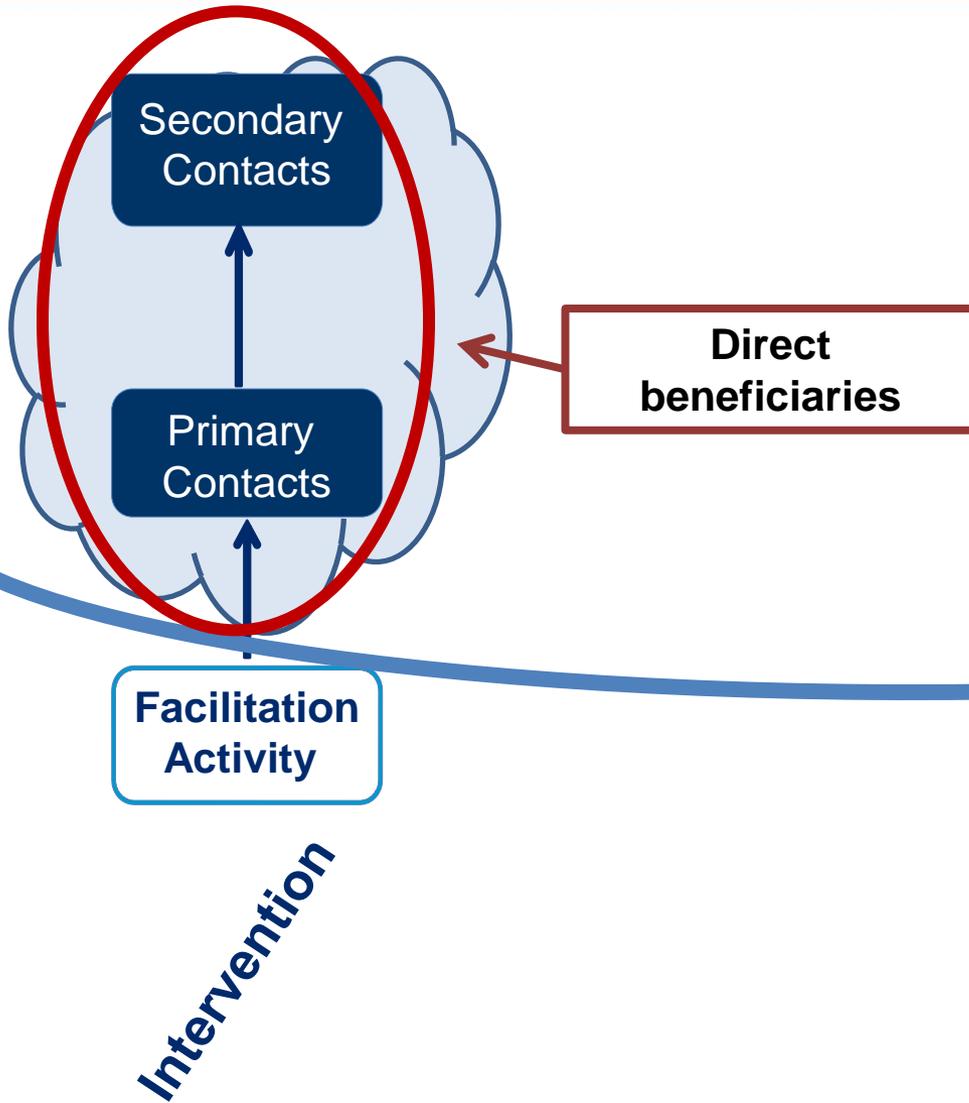

1. individual or organization
2. **directly receives**
3. **significant goods or services**
4. from the **activity**

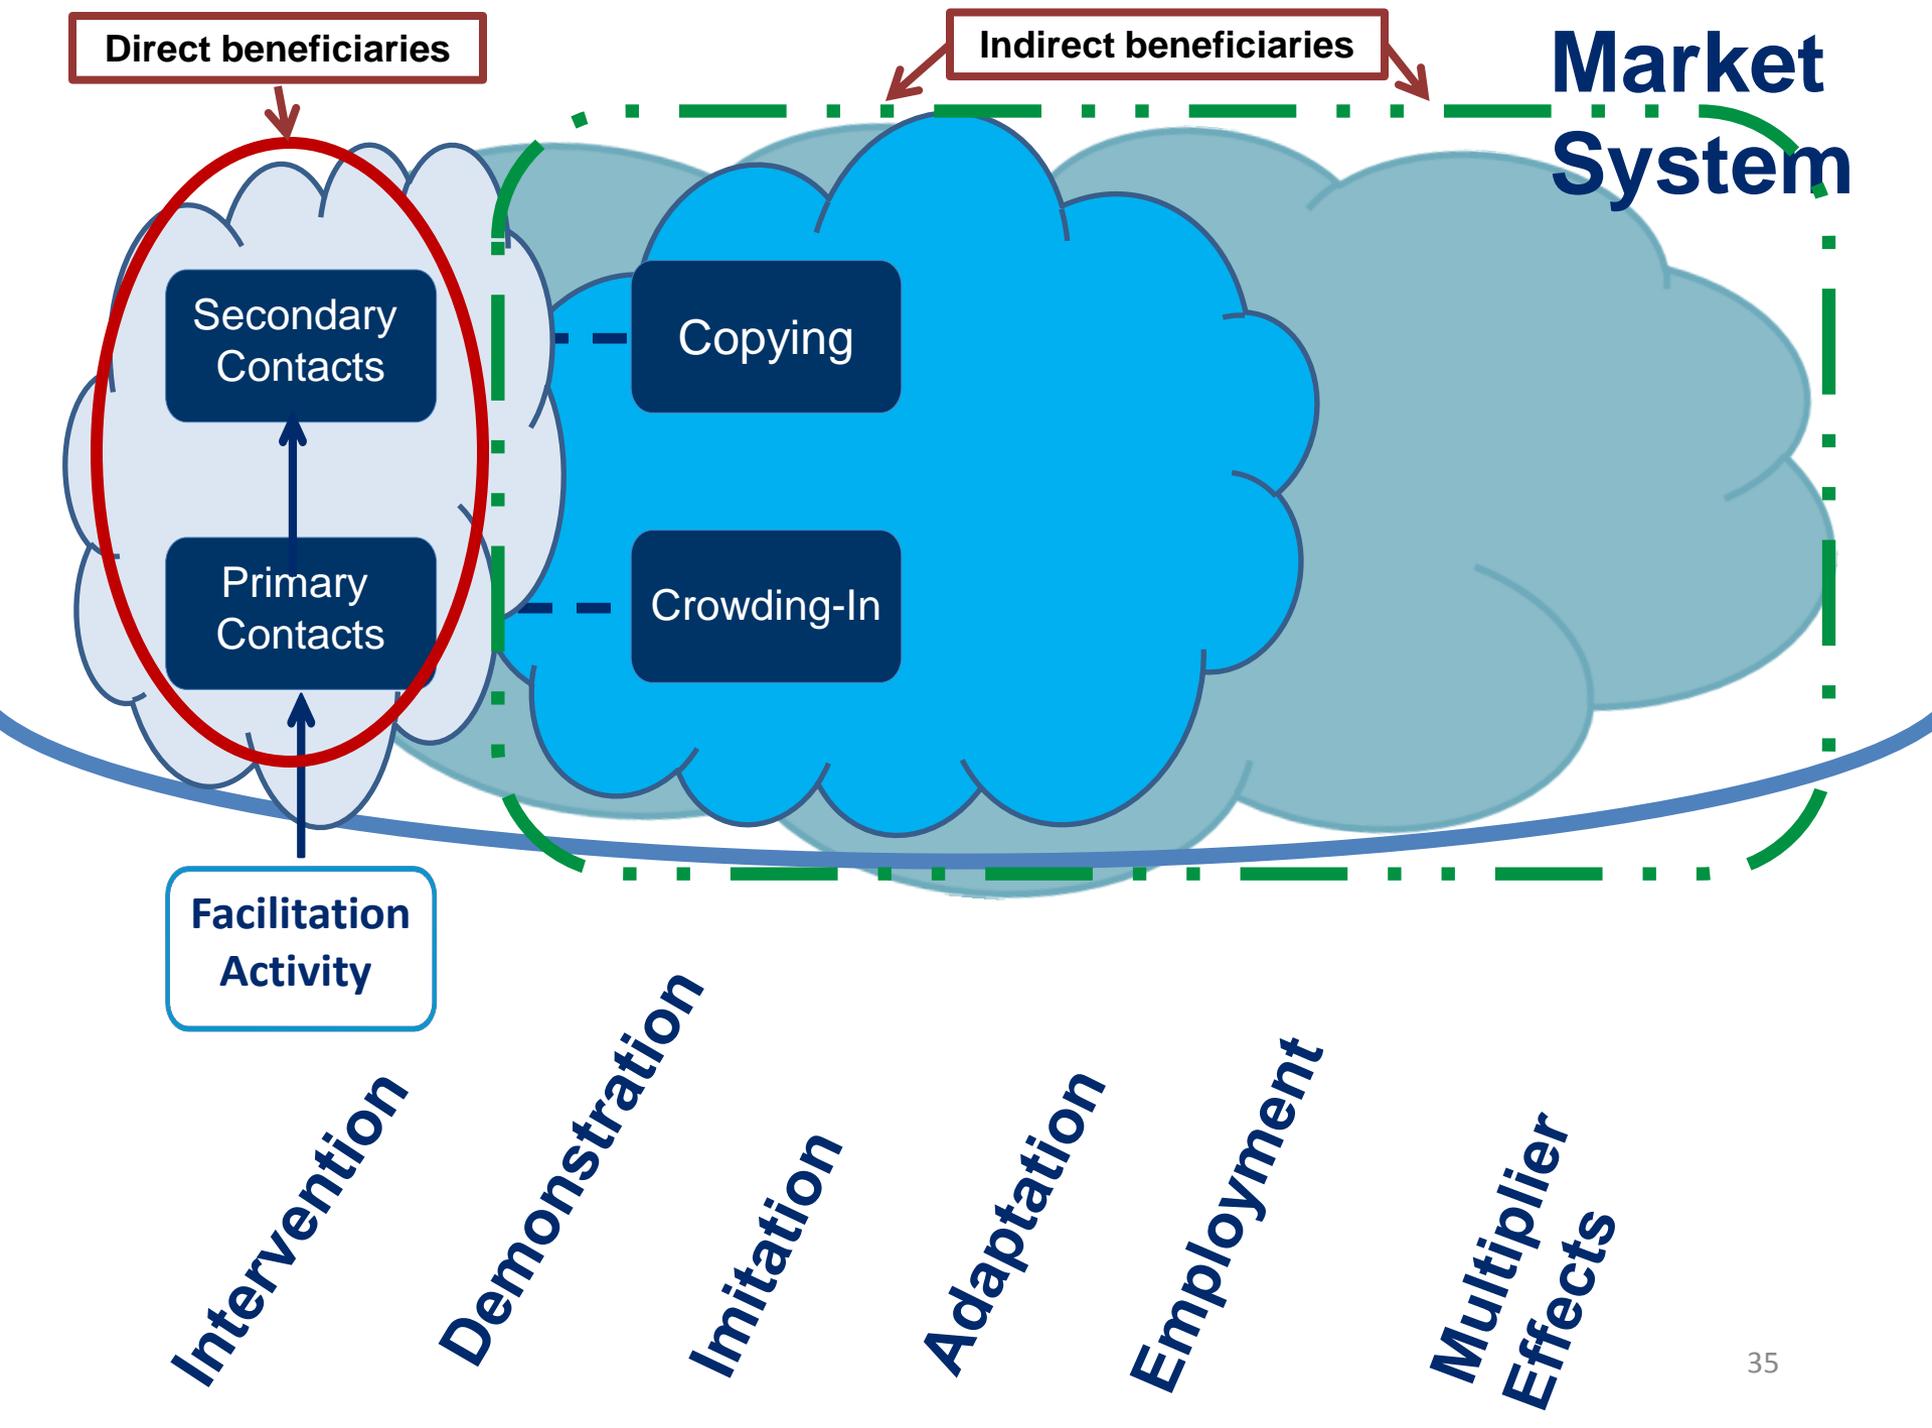

## Direct beneficiaries include...

- people trained through “cascade” and other **peer-to-peer training and demonstration** strategies
- **mothers/fathers/other caregivers** reached with behavior change counseling about their children
- farmers reached through **market-level interventions**

## Market System

Direct beneficiaries

Indirect beneficiaries

Market System

Secondary Contacts

Copying

Primary Contacts

Crowding-In

Facilitation Activity

Intervention

Demonstration

Imitation

Adaptation

Employment

Multiplier Effects

| INDICATOR   | UNIVERSE MEASURED  |
|---|--|
| # Farmers and others applying improved technologies | Direct beneficiaries (individuals) <u>throughout the value chain</u> |
| # Hectares under improved technologies              | Direct beneficiary <u>crop producers</u>                             |
| Gross margin, Incremental sales                     | Direct beneficiary <u>smallholder producers</u>                      |
| <b>Nutrition-sensitive activities only</b>          |  |
| Female beneficiaries w/minimum diet diversity       | Direct beneficiary <u>female producers</u>                           |
| NRVCC set-aside                                     | Direct beneficiary <u>producers of nutrient-rich commodities</u>     |

## Application of improved technologies indicators changes

- New disaggregate – **Commodity**
- Technology Type **Climate Mitigation and Adaptation** split into two
- Tech Type disaggregate “**Number with one or more” dropped** (yay!)
- Technology with **multiple benefits**?
  - Report under multiple Technology Type categories, depending on why it's being promoted

## Application of improved technologies indicators reminders

- Count beneficiary or hectare **once** under **sex and commodity** disaggregates
  - Regardless of number of technologies or practices applied
- Report under **each technology or practice** applied
- Count if **individually applied**
  - **Don't count** all **group members** if applied in a group
  - Only count if **individual** beneficiary applies on **own** land/to own animals

## Eg.3.2-18 Number of hectares under improved technologies reminders

- **Non-land-based** technologies **excluded**
  - Animal genetics
  - Fishing gear/technique
  - Post-harvest handling, storage, processing
- Count demonstration plots?
  - **Yes**, if cultivated by **direct beneficiary farmer**
  - **No**, if cultivated by **researcher or extensionist**

## EG.3-6,7,8 Gross margin per hectare, animal or crate

- **Five data points**

- Production

- Volume of sales

- Value of sales

- Cash recurrent input costs

- Units of Production

- Number of animals in herd for live animal or meat sales

- Number of animal in production for dairy or eggs

- Plus Number of **direct beneficiaries**

## EG.3-6,7,8 Gross margin

- Disaggregate by **commodity** then by **sex**

Soybean

- Production
  - Male
  - Female
  - Joint
  - Association
- Etc... (other four data points)
- Number of beneficiaries
  - Male
  - Female
  - Joint
  - Association

Gross margin per hectare of land is

**(Value of production – input costs) ÷ area**

Value of production is

**Total production x average price**

Average price is

**Total value of sales ÷ Total volume of sales**

## EG.3-6,7,8 Gross margin

- Total production and total quantity (volume) of sales must be comparable:
  - Same **Unit of Measure** e.g. both in kg or both in mt
    - Report this unit of measure in FTFMS
  - Same **Product Form** e.g. both unshelled, both on cob
- Measure across **all beneficiaries** of value chain

## EG.3-6,7,8 Gross margin

- Cash recurrent input costs
  - Inputs purchased every year
  - Only inputs that are paid for with cash (at time of purchase or after harvest)
  - NOT value of family labor, saved seeds, other in-kind inputs
  - Not value of capital investments
- Hectares cultivated
  - Planted, not harvested

## **EG.3.2-19 Value of small-holder incremental sales (at farm level)**

- Sales by **small-holder producers only**, not by other actors in value chain (e.g. traders, wholesalers, exporters)
- **Farm level does not equal farm gate**. Producer sales anywhere (e.g. on-farm, local market).
- Count **all beneficiaries** of VC activities, not just those that sold some of their production

## EG.3.2-19 Value of small-holder incremental sales (at farm level)

- Captures the **increase** in sales with our support
  - factors in what beneficiaries were selling **before** the activity started
- **Cannot be calculated** if value of baseline sales or number of baseline beneficiaries is missing
  - Baseline not available? Use **reporting year sales and number of beneficiaries from the first year** as the baseline values

Overestimating incremental sales because of:

- growth in the number of beneficiaries
- baseline sales of new beneficiaries not reflected in baseline sales value.

FTFMS adjusts by calculating:

1. average baseline sales per beneficiary  $\times$   
number of reporting year beneficiaries =  
**adjusted baseline sales**
2. reporting year sales - adjusted baseline sales =  
**adjusted incremental sales**

## If multiple crop cycles in the reporting year...

- # Farmers and others applying improved technologies
  - Count farmer **once** if s/he cultivated with an improved technology or management practice in **any cycle** during the reporting year
- # Hectares under improved technologies
  - **Sum each time** area is cultivated with an improved technology or management practice during reporting year
- Gross margin
  - **Sum** production, sales, input costs and area planted by commodity **across cycles each time** area is cultivated during reporting year
- Incremental sales
  - **Sum** sales across **all plots, all cycles** during reporting<sup>50</sup> year

**If crop cycle straddles two reporting years...**

**...report results** for the **suite** of related farm-level agricultural indicators **in the year the production cycle ends** (i.e. when the harvest and sales occur)

Report together

1. # Farmers and others applying improved techs,
2. # Hectares under improved techs,
3. Gross margins,
4. Incremental sales,
5. Female beneficiary MDD,
6. NRVCC set-aside

FY16

FY17

O N D J F M A M J J A S O N D J F M A M J J A S O N D J F M A M J J A S O N D

## **EG.11-6 Number of people using climate information or implementing risk-reducing actions to improve resilience to climate change (NEW, REPLACES 4.5.2-34)**

- Report **same value** as under Farmers and other applying indicator “**Climate Adaptation**” Technology Type disaggregate
  - Regardless of whether you receive Global Climate Change funds
- **Disaggregation**
  - **Sex** only
  - **Type** of Risk Reduction practice **dropped**

## **EG.3.2-7 Number of technologies in phases of development**

For **research (R&D) activities only**

- Tracks development of technology until it is ready to be disseminated
  - Note name of technology in Indicator Comment
- Do NOT use to track technologies actually disseminated
- Doesn't need to pass through all three phases to be counted

## EG.3.2-6 Value of Agricultural and Rural Loans reminders

- Count only...
  - **Cash** loans
    - Not in-kind
  - Loans **disbursed** during reporting year
    - Not entire portfolio
  - Loans from **registered financial institutions**
    - Not informal entities – e.g. Village Savings and Loan groups.

## **EG.3.2-3 MSMEs, including farmers assisted to access agricultural-related credit changes**

- Title change because indicator is **not restricted** to bank **loans**
  - Any financial institution, formal or informal
  - Includes in-kind lenders of equipment/inputs
    - e.g. inputs received on credit from agrodealers, in-kind loan of a plow
  - Repayment in cash or in kind

## **EG.3.2-3 MSMEs, including farmers assisted to access agricultural-related credit changes/reminders**

- Number of employees refers to full time-equivalent workers **during the reporting year** rather than previous month
- **Farmer MSME size** based on **# of FTE workers hired** (permanent and/or seasonal) previous 12 months
  - Farmer that doesn't hire = micro-enterprise

## EG.3.2-22 Private sector capital investment changes/reminders

- Only **private sector, for-profit, formal** companies
  - not investments made by individuals, e.g. farmers
- Only **capital** investment (Title change)
  - not investment in operating capital (e.g. inputs, inventory)

## EG.3.2-5 Number of public-private partnerships changes/reminders

- Essential characteristics of PPPs
  - Objective of agreement = **common good**
  - Private sector contribution = **beyond current commercial interests**
    - **expanding** into new product, customer base, or geography
  - Leverages **additional** private resources beyond “business-as-usual”
    - e.g. increasing capital investment or staff

## EG.3-9 Number of jobs

- Activities **w/explicit employment creation objectives**
- Employment must be at least **30 consecutive days** minimum (or 20 days if weekends off)
  - Most seasonal labor doesn't qualify
  - Create custom indicator if you want to track seasonal agricultural labor
- FTE = 12 months or 260 days

## **EG.3.2-20 Food security private enterprises... producers organizations...etc... that applied improved organization-level technologies or management practices changes/reminders**

- **Dropped Duration:** New; Continuing disaggregate
- Assistance must be aimed at **strengthening capacity of the organization** itself (Title change)
  - Not being used solely as a “service delivery mechanism”

## **EG.3.2-1 Number of individuals who have received USG-supported short-term agricultural sector productivity or food security training change**

- Added requirement to **enter layered disaggregated data** - first by Type of Individual then by Sex
  - Producers
    - Male
    - Female
  - People in government
    - Male
    - Female

**HL.9-1 Number of children < 5 reached**

**HL.9-2 Number of children < 2 reached**

**HL.9-3 Number of pregnant women reached**

- Count **individual** children and pregnant women
  - not number of contacts
- Count each child or women **once**, regardless of number of interventions received from the activity for **overall indicator** and **child sex** and **pregnant woman age disaggregates**
  - Count **once for each intervention** received under disaggregate (i.e. double-count)
- Count even if **mother/caregiver is direct recipient** of intervention

## **HL.9-1 Number of children under five (0-59 months) reached with nutrition-specific interventions through USG-supported programs (NEW)**

- Substantial change in definition: considered new
- **Nutrition-specific** interventions only
- Disaggregate **by intervention**
  - Behavior change communication promoting essential infant and young child feeding behaviors
  - Vitamin A supplementation
  - Zinc supplementation
  - Multiple Micronutrient Powder supplementation
  - Treatment of Severe Acute Malnutrition
  - Treatment of Moderate Acute Malnutrition
  - Direct food assistance fortified/specialized food products<sup>64</sup>

## **HL.9-2 Number of children under two (0-23 months) reached with community-level nutrition interventions through USG-supported programs (NEW)**

- **Two or more interpersonal contacts** with mothers/caregivers
- **Social and Behavior Change Communication** on infant and young child nutrition practices **required**
- May also include
  - links to health/nutrition services
  - access to water/sanitation and promotion of hygienic practices
  - provision of specialized food products
  - promotion of homestead gardens
- Do **not** count children reached only by population-level campaigns

## **HL.9-3 Number of pregnant women reached with nutrition interventions through USG-supported programs (NEW)**

- **Nutrition-specific** interventions only
- Disaggregates
  - Intervention
    - Iron and folic acid supplementation
    - Counseling on maternal nutrition
    - Calcium supplementation
    - Direct food assistance fortified/specialized food products
  - Age
    - <19 years
    - 19+ years

## **HL.9-4 Number of individuals receiving nutrition-related professional training through USG-supported programs (NEW)**

- Substantial change in definition: considered new
- **Significant** knowledge or skills
  - Basic and applied nutrition-specific or nutrition-sensitive training
  - Academic, pre- and in-service venues
  - Degree and non-degree granting
- Health and non-health **service providers (including ag extensionists), policy-makers, researchers, students**
  - **Not mothers/caregivers/family members**

## **HL.9-4 Number of individuals receiving nutrition-related professional training through USG-supported programs (NEW)**

- **Disaggregates**
  - **Sex:**
    - M
    - F
    - Disaggregates not available (if you don't know sex of trainee)
  - **Type/Duration:**
    - Non-degree
    - Degree - new
    - Degree - continuing
    - Degree - Disaggregates not available (if you don't know whether new or continuing)
    - Disaggregates not available (if you don't know whether degree or non-degree seeking)

## Estimated # and % of FTF beneficiaries holding 5 hectares or less of arable land or equivalent units of livestock (Smallholders)

- Percentage of beneficiaries = % **out of total beneficiaries** in each disaggregate category that are smallholders
- NOT % **of all smallholder beneficiaries** that fall in each disaggregate category
- Direct beneficiaries during **current reporting year**, not indirect, not cumulative

## Example:

- A mission is directly reaching 200,000 beneficiary producers
- 90% are smallholders
- 160,000 beneficiaries in a crop value chain activity
- 40,000 in a livestock value chain activity
- All of the crop value chain participants are smallholders
- Half of the livestock participants are small holders

|                                | Total         | Crops     | Livestock |
|--------------------------------|---------------|-----------|-----------|
| Number of smallholders         | 180,000       | 160,000   | 20,000    |
| Percent that are small holders | 90            | 100       | 50        |
|                                | <b>NOT 90</b> | <b>89</b> | <b>11</b> |
